

## Get your best lip and nail colour combinations

Celebrities wear make-up colours that complement their colouring to look their best.

Choose your fabulous colour combo of a lipstick, a lip pencil and a nail colour from your best shades to look red-carpet ready this summer.

See my suggestions for your lip and nail colour combination for each dominant colouring below.

If your look is similar to the very light blonde and pale-skinned **Gwyneth Paltrow** (Light colouring) you will look radiant in the lightest of shades.

Choose delicate and creamy **SANDALWOOD** lipstick with **NATURAL** lip pencil and light nude nails with **EVER AFTER**.

If you are a dark-haired and dark-eyed beauty like **Penelope Cruz** (Deep colouring) you want a lipstick with depth of colour.

Go for **RUBY** lipstick with **CRIMSON** lip pencil and **DROP DEAD RED** for the nails.

From strawberry blonde to fiery red, if you are a ravishing redhead like **Julianne Moore** (Warm colouring) then keep your colours warm.

For your lips wear summery **SHEER BREEZE** lipstick with a **NATURAL** lip pencil and the shimmering orange-rust shade of **SMOKIN' HOT** on your nails.

Do you have striking white or silver hair like **Helen Mirren** (Cool colouring)?

Make the most of your pinks and wear glamorous **SHEER FIESTA** lipstick and **ROSE** lip pencil. Keep your nails cool and nude with **KISS MY HIBISCUS** on your nails.

You have dazzling eyes and dark hair like **Emily Blunt**, so you want a bright lipstick to compliment this contrast of bright against dark in your (Clear) colouring.

Get **WARM PINK** for your lip shade with **CANTELOUPE** lip pencil and go bold on the nails with **KISS MY HIBISCUS**.

If you have medium-blond hair and a similar colouring to the gorgeous **Kylie Minogue** (Soft colouring) then choose a pretty lip colour - **SPICED PEACH** with **SPICE** lip pencil and a soft nail shade with **NUDE SCENE**.
